Clients who have file-related questions that were not answered using MEP Accounts Online (MAO) or the MEP Info Line can request a call back from their case officer through MAO. The call back requests through MAO are sent directly to the case officer, which results in reduced wait times. MEP Accounts Online is accessible 24-7, and it creates a logged record of each request, which provides MEP with better tracking and accountability.

Clients who are registered with another Canadian provincial or territorial maintenance enforcement program should always communicate with their own program.
